# GENERAL INFO

## ACCOMMODATION

Feb 27th to Feb 29th: Mix between Flock Hill Lodge, Alistair Lodge and houses (Bach's) at Castle Hill

Feb 29th to Mar 4: Everyone at Pinewood Lodge

## LOSS OF LUGGAGE

I don't really want to say it, but with 120 people arriving on Feb 27th and with a majority of this amount arriving by flights, there is a chance baggage/bikes won't make it. We always hope not but if you need to give an address to the airline for your missing bags to be delivered to, then we will be at:

Feb 27th to Feb 29th (leaving 29th by 12pm)  
Flock Hill Lodge, State Highway 73, Canterbury 7875, NZ  
Flock Hill Lodge Number: 03-318-8196  
My cell number: 021-069-7707

Feb 29th to Mar 4:  
Pinewood Lodge, 48 Hamilton Road, Queenstown, Otago, NZ

## LAUNDRY FACILITIES

There will be laundry facilities at both Flock Hill Lodge and Pinewood Lodge if needed. But remember there are 120 of you, so don't guarantee you will see the washing machines free everyday!

## **PROTECTION – KNEE PADS? FULL FACE?**

There are no requirements or rules that you have to wear a full face helmet, knee pads, or elbow pads. I highly recommend knee pads. You are going to be out there for 3-5hrs a day so taking a full face is a commitment but I know some of you may have had previous head injuries and this is priority for you, so all good – but an enduro/regular helmet will be just fine and if bringing a full face, I recommend either a bell helmet (removable chin piece), or bringing your half lid as well so you don't suffer on the climbs with just your FF.

## **WEATHER**

Be prepared for anything. You are in the mountains of NZ that have a mind of their own. It could be 25-30 deg Celsius, sunny and hot or it could be clouded in, windy, rainy, cold and down to 10 deg's. It makes it super tough for packing, but I will update you all the week before on what the weather gods are looking to deal us for the week to give you a rough idea! Bring a rain jacket, some warm base layers and warm gloves just to be sure. Last year day 1 was full on torrential down pour and day 4 was low 30's Celsius, so come prepared!

## **CUTOFF TIMES AND LIAISON STAGES**

I will not be allocating any cutoff times on the first day and you do not have any time restrictions for liaison sections between stages. I want to keep this fun and relaxing for you all. But if I find some people out there are having picnics and really taking their time, then I might have to enforce some course cut off times for the following days. If you need more time on course to get through it, then make sure you are one of the first to start on course each day.

## **FOOD STATION ON COURSE**

There will be 1 food/water station each day on course at around the half way point. There will be the usual lineup of food: bananas, bars, snacks, muffins, electrolyte, water etc. If you have favorite race food and snacks then bring them along.

## **MEALS**

All meals are included for those on the all-inclusive package. You will get dinner each night, breakfast that will include a few hot items like eggs and bacon along with full continental of cereal and toast selections. You will be provide with a sandwich for lunch each day and this is either when you come in to the finish line, or out on course, based on what the day looks like.

## **BUYING FOOD**

Note that if you are getting picked up from the Airport on Feb 27th, you will be heading straight out to the mountains. There are no shops out there. If you need to buy snacks or any other supplies we can have the shuttle drivers stop at the small convenience store on the way out. We don't pass any major grocery stores, so options will be limited. Once you hit Queenstown at the end of day 2, we are staying about a 3min bike ride from a grocery store and anything else you can think of.

## **BIKE BOX TRANSER TO QUEENSTOWN**

We will be transporting bike boxes to Queenstown for those that will be staying there after the race is over and for those that have requested this on their rider questionnaire form. All other bike boxes will stay Christchurch for when you return there on March 4th.

## **CHARGING PHONES AND ELECTRICAL DEVICES**

There will be power outlets in all the rooms for each night of the accommodation. Except there will be limitations to those that are staying at Alistair Lodge on the first 2 nights as that lodge is run off solar power and generators when needed. You can leave anything that you want charged in the media room at Flock Hill if required after dinner.

## **TRAVEL INSURANCE**

Some of you may have heard that you don't need travel insurance for NZ as they have a program called ACC that covers any accidents. The answer to this is yes and no. If you are an international rider then I highly recommend you get travel insurance that covers mountain biking. ACC doesn't cover all things and you don't want to be left with a \$5000-\$10000 heli bill if you need heli'ed out of the trails. Also if you have a major injury and then have to return back to your home country, then you are not covered for treatment once you leave NZ. Again, it is very important that all international riders get travel insurance. If you are Canadian you can get your travel insurance from Northman that covers racing. <https://northman.co/global-riding-adventures/>

## **CELL COVERAGE AND WIFI ACCESS**

There will be no or limited cell/mobile phone coverage for the first 2 nights:

Flock Hill Lodge: No cell coverage but wifi at a cost

Bach's: Yes to cell coverage and most of the bach's have wifi

Alistair Lodge: Limited cell coverage and no to wifi

Out on course day 1 and 2 will have cell coverage with some dead zones.

Days 3-5 will have cell coverage and wifi

## TOOLS AND MECHANIC ACCESS

We will have Rufus from **Back Alley Bike** in Christchurch be your main mechanic for Day 0 (bike building day) and end of Day 1 and we will have **Vertigo Bikes** in Queenstown for Days 3-5. These guys will have all the tools needed and be there to do any minor tweaks needed. If you need any parts or major servicing then they can do this but at a cost. They will also have extra tubes, tires, break pads etc if you are in need of any emergency purchases. But we recommend you bring an extra set of pads for your specific brand just in case.

**Trans NZ will have the following tools for you to use and have access to throughout the duration of the race:**

Bike Stand  
Floor/track Pump – that works to pump up your tubeless tires  
Cable Cutters  
P-Handle Hex Set of Allen Tools  
Cassette Remover  
Chain Breakers  
HG Cassette Lock-ring tool (Shimano compatible. Also suitable for Shimano Centre-lock lock rings)  
Small screwdriver (for derailleur adjustment)  
8 x 10mm forged steel-open-ended wrench  
Freewheel turner (chain whip)  
Bottom bracket wrench Shimano Hollowtech II B.B  
Steel hub-cone wrenches (13 x 14 x 15 x 16mm)  
Cotterless crankarm extractor (fits all cranks)  
Forged 8-groove spoke adjuster  
2/2.5/3/4/5/6mm hex key wrench set (4/5/6 ball-end)  
Bottom bracket cup tool (External type BB)  
15/16 and 15/17mm pedal wrench  
Cartridge bottom bracket tool (Shimano type)  
6" adjustable forged steel wrench  
Bottom bracket and headset lockring tool  
Adjustable chain rivet extractor and assembler (Shimano compatible)  
8mm hex key wrench (for crankarm removal) and 1/2" adaptor (for socket tool)  
Shock Pump

If there is anything missing from this list that you think should be on there, then please ask/request [megan@ridingbc.com](mailto:megan@ridingbc.com) but again remember the mechanics will have extra supplies on top of this, this list is just the Trans NZ tool supplies.

# PACKING LIST AND IDEAS

## PACKING LIST (JUST SOME IDEAS)

Now keeping in mind what tools and supplies we will have for you above, these are some things you should bring:

- Spare Hanger specific for your bike
- Allen Key Set for backpack
- Shock Pump (or share between friends coming – we will have one if you don't want to bring one)
- 2 x Spare tubes (you can buy extra's from mechanics if you go through them)
- Patch kit
- Sidewall patches
- Tire Levers
- Sleeping Bag & Pillow Case (only for those on the All Inclusive Package. All of those on the Pamper will be supplied with bedding)
- Rain Jacket
- Warm base layer
- Earplugs for sleeping ;) .....very important!
- Power adaptor/converter if coming from overseas
- Headlamp
- Along with all the obvious stuff of bike, bike shoes, helmet, toothbrush etc ;)

# DAILY SCHEDULE

## FRIDAY FEB 26TH:

All Volunteers to arrive in Christchurch by mid afternoon and be taken out to Castle Hill for meetings/briefing and team dinner!

## SATURDAY FEB 27TH:

**Participants Arrival Day.** We will be doing shuttle pickups from both the Airport and from YMCA Backpackers in the city of Christchurch.

Airport Pick up times will be in more detail once I hear back from everyone with the questionnaire that you should have already filed out! (see more details on this lower down in this info guide). You will be emailed the detailed pickup schedule a few weeks before race day. But expect a shuttle to be leaving within about 1-2hrs of your arrival time at the airport on Feb 27th.

Approx Airport Shuttle Times:

9.30am, 11.30am, 1.20pm, 2.45pm, 3.20pm, 4.00pm

Approx Pick up times from YMCA:

11.30am

Those arriving at the airport on Feb 27th – You will be putting your bike together at the airport before loading in the shuttle vans. Your bike boxes/bags will go in a separate storage truck, you will not see those boxes/bags until the end of the race. There are a few bike stands and tools to put your bikes together there. You will then get taken to Craigieburn (1hr 15min drive away). Once taken out to your accommodation there are no food supplies and no shops and we are somewhat isolated! The shuttle van drivers can make a stop on the way out to grab lunch for that day or any smaller supplies you might want, but don't rely on it. We provide dinner that night and all meals from that point forward (breakfast, lunch, dinner and on course snacks). But please bring any of your favorite snacks and supplies.

6.30pm: Dinner at Flock Hill Lodge

8.00pm: Mandatory Briefing at Flock Hill Lodge (including those on the Base Package - be there for 7.30pm)

## SUNDAY FEB 28TH:

# COURSE DETAILS

## COURSE DETAILS

To the good stuff! We are not releasing any of the specific course details until race day, that's what this is all about, keeping it exciting, riding blind and making sure the locals don't get an advantage of those traveling from afar! Here are just some stats, average's and a guide to keep you going and entertained!

### Day 1: Craigieburn

- Alpine Riding, Beautiful Scenery (if not clouded in!), mix of trail types from traversing exposed trail, to high speed flow, to roots, and loose dirt. This day has a little bit of everything and depending on the weather will depend on how it rides. A solid day of climbing today
- Approx 26km, Approx 1500m of climbing, Approx 1750m descending, Approx 5-6hr day

### Day 2: Craigieburn

- We have a big drive this day so the riding will be a little shorter and there could be a few shuttles in there too, after the big day yesterday and what will be a big day tomorrow, you will appreciate a shorter day today!
- Approx 23km, Approx 1200m of climbing, Approx 1400m descending, Approx 3hr day

### Day 3: Queenstown

- This is pure alpine riding, with crazy scenery and a mix of open tussock flow trails with a bit of technicality to through in the there to keep you on your toes.
- Those with true distance stamina will shine on this day as there a few super long descents
- The last stage will be the steepest and toughest of the day, so save some energy
- Approx 35km, Approx 2000m Climbing and a whopping 3700m of Descending, Approx 5-6hr day

### Day 4: Alexandra (on private land)

- This day is different to all the rest. You will be riding dry and rocky terrain today but stupidly fun trails!
- The locals have created an art with trail building and incorporating rock features and the use of terrain into all their trails
- This will be the day to back it off a little as these trails aren't ridden to the extend of others and you need to keep your eye closely on where the trail goes before you find yourself unsure of where you are!!
- Its also on its own climate gauge and the heat can really creep up and there are no trees or shade on course – so be warned and ready and hope for a cooler cloudy day.
- Approx 30km, Approx 1200m of Climbing and Descending, Approx 3.5 - 4.5hr day

### Day 5: Queenstown

- It's the last day and I am sure you will all be feeling a little shattered, but hang in there as its going to be worth it
- That's all we are going to say about this day
- Approx Distance 18km, Approx Climbing/Descending 1400m, Approx day 4hrs
